Combinatorial Problems

Introduction

Combinatorial optimization problems are commonly found in the industry. These problems are usually \mathcal{NP} -Hard, and their decision counterparts \mathcal{NP} -Complete.

Combinatorial Problems

Introduction

Combinatorial optimization problems are commonly found in the industry. These problems are usually \mathcal{NP} -Hard, and their decision counterparts \mathcal{NP} -Complete.

This thesis focuses on

- Binary Knapsack Problem (0/1 KP)

Combinatorial Problems

Introduction

Combinatorial optimization problems are commonly found in the industry. These problems are usually \mathcal{NP} -Hard, and their decision counterparts \mathcal{NP} -Complete.

This thesis focuses on

- ▶ Binary Knapsack Problem (0/1 KP)
- ▶ Constraint Satisfaction Problem (CSP)
